

Off Campus Housing

There are many apartments throughout East Lansing and Lansing serving the MSU student population. Apartments throughout the city range in prices and sizes to fit your individual needs. Below are some tips for renting apartments in the area as well as some websites and telephone numbers to contact if you are searching for an off campus apartment.

Renting Tips:

- Many apartments in East Lansing are furnished or can be furnished for a small monthly fee, if you don't want to buy furniture look for one of these
- Make sure to ask about what the rental price of each apartment includes, as it varies by apartment complex
- Because Michigan winters can be very cold and heating is expensive, look for apartments that offer free heat in the winter.
- If you do not have access to a car, make sure to find an apartment within walking distance or on a direct bus route to campus. Some apartment complexes even give free semester bus passes to their residents who are students
- If you do have access to a car, sometimes living a few miles away from campus can be cheaper and quieter, great for grad students and families!
