Letter from the Director

Dear Colleague,

I am pleased to present you with this statistical report on international students and scholars at Michigan State University. The Office for International Students and Scholars (OISS) is responsible for serving MSU's international community and prepares this data annually. Before making some general observations about this year's data, I would like to tell you about some of the activities that OISS has engaged in over the past year. Now that SEVIS (the Student and Exchange Visitor Information System) has been fully implemented and is running relatively smoothly, OISS was able to spend more time on programming aimed at making international students and scholars feel welcome on campus and in the community.

Below is a list of some of OISS' activities over the past year:

• More than 650 new international students enrolled at MSU in fall 2004. The fall orientation program was a success on several levels. First, OISS included more departments and units to assist us in providing essential information and services to international students and scholars during orientation. Second, OISS had a record turn out of student leaders and community members who volunteered to help with orientation. There is no doubt that the presence of returning students made orientation more warm and personal for students arriving on campus for the first time. Lastly, thanks to the office's successful fundraising efforts and community business partnerships, international students enjoyed the Orientation Welcome Dinner in the elegance of the Kellogg Center.

• In October, OISS, the Kiwanis Club of East Lansing and the Lansing Regional Chamber of Commerce hosted a special reception for international students that featured remarks from Provost and President-Designate Lou Anna Simon. This event brought together local government officials and members of the business community who affirmed their commitment to making international students feel welcome and comfortable in the Lansing area.

• More than 140 international students wrote about their experiences as part of the International Student Essay contest held in October. This provided the students a chance to reflect on their lives at MSU and in the US. It also gave the rest of the campus a chance to learn from the experiences of some of the most global members of our community.

• Community Volunteers for International Programs (CVIP) and the MSU Union collaborated to present the annual Global Festival during International Education Week in November. Students from many countries shared their culture with more than 4,000 members of the community during Global Fest this year. Other CVIP programs such as the Lending Center, the Friendship Family program, the Supper Club, and the Scholarship program operated over the past year.

• The weekly International Coffee Hour continues to be a popular tradition for gathering, conversation, and the opportunity to make friends from around the world. An average of 100 students and scholars attend the Friday afternoon event. This year several MSU departments and units have sponsored coffee hour. This sponsorship provides them with the opportunity to showcase their programs and to reach out to the international community on campus.

• During the 2003-04 year, the OISS Emergency Tuition program allocated approximately $143,000 to more than 100 international students who demonstrated financial need.

• The Sponsored Student Program assisted 176 students who are in the U.S. with special support from government agencies or sponsoring organizations. These sponsors include the Institute of International Education (IIE), the Latin American Program for American Universities (LASPAU), the America-Mideast Educational and Training Services (AMIDEAST), the governments of Kuwait, Saudi Arabia, and Pakistan.

• OISS helped to steward the formation of the International Student Association (ISA) which became an official Registered Student Organization this year. ISA brings a formal voice to international students on campus, takes the lead in organizing special programs, and helps with the fall orientation program.

• The David Horner Fund, named in honor of the former OISS Director, was endowed this past year. The Horner Fund will provide help to international students in financial distress.

• OISS conducted a variety of programs on topics of special interest to international students. These topics included information on employment regulations, tips for academic success, travel advisories, and immigration issues.

All these activities, we believe, have helped to make MSU a welcoming and comfortable place for international students to pursue their academic goals. It is a privilege for our staff to serve the international community. In the pages that follow, you will find a wealth of statistical information on the international student and scholar population at MSU.

Below are some general observations about this year's data:

1. Enrollment numbers:
   • There was an overall 1.1% increase in the number of international students over Fall 2003.

   • The enrollment of international graduate students decreased by 2.71%. International graduate students consist of 32.1% of the total number of MSU graduate students. This drop is commensurate with the decline in funding for assistantships.

   • The number of undergraduate international students increased by 9.5% from 1,046 to 1,145. International students are 3.3% of MSU's undergraduate enrollment.

   • In Fall 2004, international students represented 7.4% of all MSU students.

2. Sending countries:
   • Asia sends the most international students to MSU. More than 50% of MSU's international students come from five countries: Korea (759), China (543), India (371), Japan (167), and Taiwan (155).

   • In academic year 2004, there was a significant increase of 12.2% in the number of undergraduate students from Korea from 2003.

   • There was a dramatic drop of 19.4% in the number of students from Canada from 191 down to 154 from academic year 2003 to 2004.

   • In Fall 2004, students came from 126 countries compared to 123 in Fall 2003.

3. The Colleges of Business (616), Natural Science (594), Engineering (550), and Arts and Letters (378) enroll the largest number of international students.

4. The number of visiting scholars this past year was 1435, representing 98 countries.

5. MSU's international students and scholars contributed more than $90 million to the economy of greater Lansing, according to the Institute of International Education's formula for calculating the economic impact of international students.

Peter Briggs
Director

This publication was compiled and organized by Ravi Ammigan, International Advisor in OISS. Special thanks go to Lucille Wright in the Office of the Registrar, Jeannette Srivastava, Graduate Intern, and Nancy Rademacher, for their assistance in preparing this data.
